## DETAILED ACTION

### ***Reasons for Allowance***

1. Claims 1-3 and 6-13 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or suggest the device as claimed by applicant. In particular, the prior art fails to disclose a sterile connector with the claimed combination of barrier plugs, a port that supports the barrier plugs with first and second openings, and a coupling device with a linearly slideable stem, along with the other steps and limitations of the claims.

The best prior art of record, US 4,306,705 to Svensson, discloses a valve with a sliding port and filters, but fails to disclose the claimed combination of barrier devices, that the port comprises two openings, and a coupling device with a linearly slideable stem.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
  - a. US 4,705,073 Beck
    - i. Rotating gate valve with apertures
